

**New state H1N1 Web site: [www.flu.ohio.gov](http://www.flu.ohio.gov)**

**Links to H1N1 pages at [www.odh.ohio.gov](http://www.odh.ohio.gov) should be changed**

Today, the State of Ohio has launched a new flu Web site, [www.flu.ohio.gov](http://www.flu.ohio.gov). This site serves as a single location to find the most accurate information about H1N1 in Ohio. This new site has all the great information the Ohio Department of Health site had, but in an easier to navigate format.

**However**, if you have bookmarks or links to H1N1 information, including vaccine info or the clinic finder, **your links may have to be changed**. While many of the pages have been redirected to the new flu site, anyone who has bookmarked or linked to flu info on the ODH site **should check their links**.

ADDITIONAL INFORMATION FOR LOCAL HEALTH DEPARTMENTS:

In order to better serve Ohioans searching for information about upcoming clinics, ODH has the following request of local health departments: please post your local clinic information in the same place on your Web site to reduce maintenance of broken links on the flu.ohio.gov clinic finder. If you are updating your clinic information in pdf form, please **replace that pdf with one of the same name** when updating, further reducing maintenance of broken links. These steps will help Ohioans find their H1N1 vaccine clinic information. Thank you.
